Download your Wallet(MetaMask etc.)

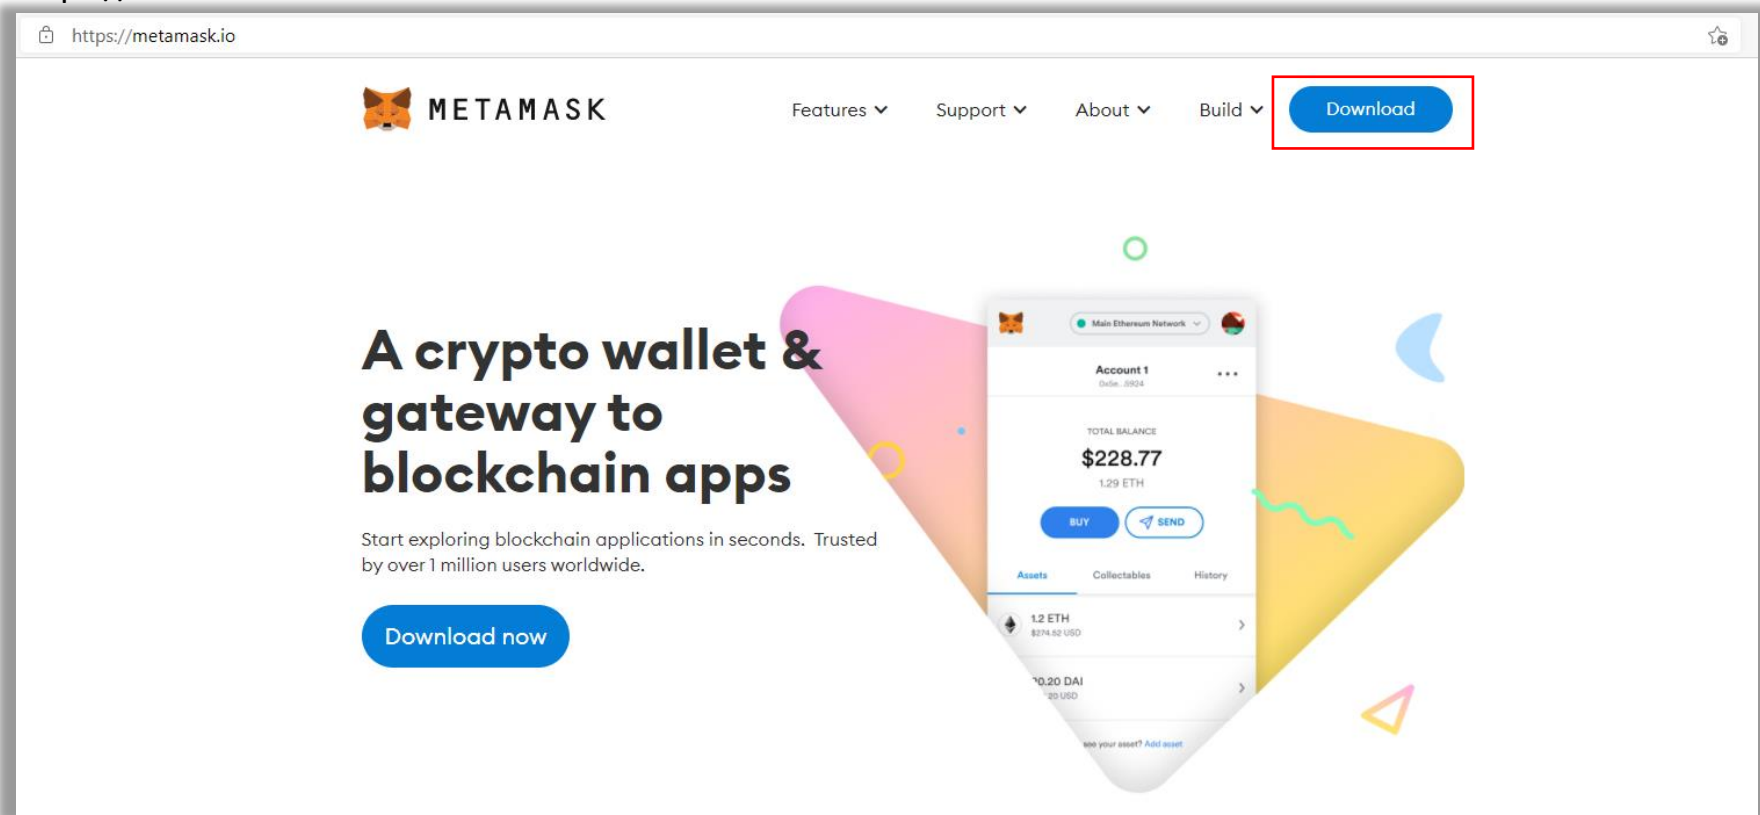

Eartha(EAR)

Download a wallet (such as MetaMask) as a Web browser extension.

When creating escrow with Eartha dApp, you will need an “EAR” with the same value as legal tender and Ethereum as a gas bill.

Log in to your wallet, copy& paste the "Contract address of Escrow with EAR" into your wallet, ADD the EAR, and after purchasing the EAR, you can “Create Buyer Escrow”.

<https://metamask.io>

ADD Tokens(EAR) to your wallet

Eartha(EAR)

To add an EAR to your wallet, copy and paste “Contract address of Escrow with EAR” into “Token Contract Address”

Check EscrowID

After creating an escrow, occasionally, “Create Escrow Confirmed” POP UP may not be displayed.

At this time, you can find the “EscrowID” in this way by clicking on the contract address in "Token Information".

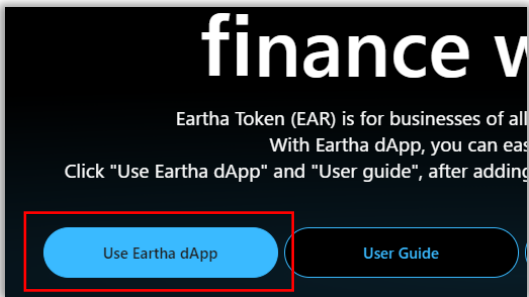

Buyer Settlement

After the buyer issues the "EscrowID", The buyer will contact the seller and give them the ESCROW ID of the escrow they created.

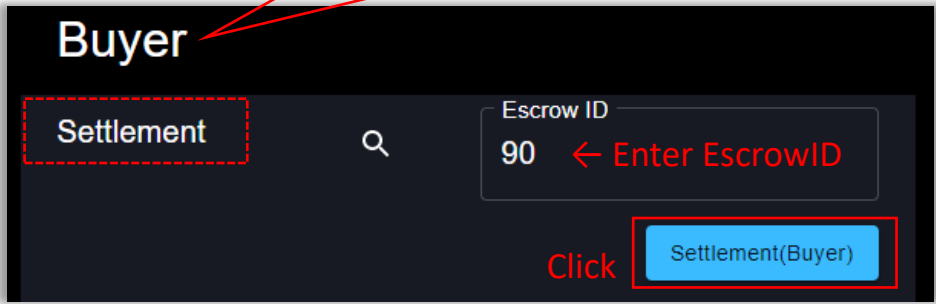

The buyer pays the seller after receiving the goods or services.

*The seller can make settlement on behalf of the buyer after the "Start date of Seller settlement" entered by the buyer when the escrow was created.

- Note:
- If the buyer creates an escrow with "Cancellation (Refund)" set to "OFF", "Cancellation (Refund)" is not possible.
 - Both the buyer and the seller cannot cancel after the "End date of cancellation" date and time.

Check the Refund amount, and click “Buyer Cancellation(refund)”. The full amount will be refunded to the buyer.

Then your wallet is called.

*If the buyer created the NFT before the refund, the owner of that NFT can cancel(refund) and receive the refund.

"Contract address of Escrow with EAR"

The buyer can turn the debts into an NFT and can sell it, after creating escrow.
The owner of the NFT can make the “Buyer Settlement”. Also, at that time, the NFT owner will receive an amount that exceeds the amount of goods and services.

<https://eartha.org>

Click

After the buyer issues the "EscrowID", the seller will be contacted and know "EscrowID".
The seller can make settlement on behalf of the buyer after the "Start date of Seller settlement" entered by the buyer when the escrow was created.

<https://eartha.org>

The image shows a sequence of steps for a seller to perform a settlement on the Eartha platform. It starts with the Eartha website header, which includes a 'Use Eartha dApp' button. An arrow points from this button to the 'Seller's Operation' section. In this section, there is a 'Settlement' button, a search bar with the text 'Escrow ID' and the value '96' (with a red arrow pointing to it and the text 'Enter EscrowID'), and a 'Settlement(Seller)' button. The 'Settlement' button and the 'Settlement(Seller)' button are both highlighted with red dashed boxes.

Note:
Seller cannot settle before "Start date of Seller settlement"

Check the estimated amount and details, and click “Seller Settlement”.
Your wallet is called.

Cancellation / Refund(Buyer)

- Note:
- If the buyer creates an escrow with "Cancellation (Refund)" set to "OFF", "Cancellation (Refund)" is not possible.
 - Both the buyer and the seller cannot cancel after the "End date of cancellation" date and time.

Check the Refund amount, and click “Seller Cancellation(refund)”. The full amount will be refunded to the buyer.

Then your wallet is called.

*If the buyer created the NFT before the refund, the owner of that NFT will refund and receive the refund.
